Comparing and arranging decimals worksheets

Looking for high-quality math jobs aligned with common Core standards for K-8 grades? Our premium journal bundles include 10 activities and a response key to the challenge for their students and help them understand each topic at their grade level. ----- Note: The above information will not be sent to the printer -----Rely respond to the questions below by comparing the two digits (#1 is made for you.) #1:Which is bigger, 1.29 or 1.92 ? 1.92 # 2: What's bigger, 7.05 or 7.50 ? 7.50 #3: What's bigger, 87.76 or 87.67 ? 87.76 #5: Which is smaller, 1.56 or 1.65 ? 1.56 #6: Which is smaller, 164.340 or 164.304 ? 164.304#7: Fill in the blanks below with a < , > , or = based on the number on the left being greater (>) , smaller (<) , or equal (=) to the number on the right.4.7 > 4.071.6 < 6.12.98 < 3.013.06 < 3.6085.58 > 58.855.45 > 5.4051.6 00 = 1.685.51 > 83.3144.044 < 44.404 Place the numbers below the order from the smallest to greatest. (The first one is done for you.) 2.3 , 3.2 , 3.02 , 2.03 , 3.302 2.03 , 2.3 , 3.02 , 3.2 , 3.302 6.5 , 5.069 , 9.05 , 5.906 , 5.6 5.069 , 5.6 , 5.906 , 6.5 , 9.05 23.056 , 32.506 , 23.650 , 23.56 , 32.56 6 23.056 , 23.56 , 23.650 , 32.506 , 32.6 17.509 , 17.905 , 8.99 , 17.99 , 17.099 8.99 , 99 , 17.099 , 17.509 , 17.905 , 17.99 ----- Note: The information below this point will not be sent to your printer ----- A Place Value Worksheet - By HelpingWithMath.comThe various resources listed below are aligned to the same standard. (5NBT03) taken from the CCSM (Common Core Standards For Mathematics) as the Decimals Worksheet shown above. Lines, write, and compare decimals to thousandths. Read and write decimals to thousandths using base-ten numerals, number names, and expanded form, e.g., 347.392 = 3 x 100 + 4 x 10 + 7 x 1 + 3 x (1/10) + 9 x (1/100) + 2 x (1/1000). Compare two decimals to thousandths based on the meanings of the digits in each place, using < , = , and > symbols to record the results of comparisons. ChartPlace Value ChartsThs, hundredths, &amp; ThousandthsToBillionsDecimal ChartExample / GuidanceGameBuild The Answer GamesComplete decimals of Thousandths (using < , > , & = symbols)Matching GameMatch Standard FormMatch Standard Extended FormMatchLike the above listed, resources below are aligned with the related standards of Common Core Mathematics, which together support the following learning result: Understand the place value of the system Decimal WorksheetsInformation basics (decimal, hundredths, thousands of thousands). Includes site value activities and decimal rounding. Compare fractions with the worksheets that are printed on this page. This decimal worksheet causes problems that involve ordering decimal places. Students are given a list of decimal places and asked to order them in ascending or descending order. You can select the number of problems per worksheet, the number of decimal places to sort per problem, the number of decimal number, as well as how decimal places are ordered. Click here to have more decimals in worksheets in Mathematics Which decimal place is higher? This math worksheet will help your child learn how to determine which decimal places for decimals and centuries have a higher value. Practice the different types of math questions that are presented in the worksheet when comparing and ordering decimal places. This worksheet contains questions that are primarily related to comparing decimal places, and then place decimal places in the correct order by arranging decimal places in ascending and descending order. Read the questions carefully.1. Compare the following:a) 9.088 and 9.88(b) 85.440 and 86.44(c) 6.3 and 6.248(d) 65.07 and 65.7(e) 7.7.7.1.2000, 2007.e 081 and 7.08(f) 0.2 and 2.784 (g) 12.2 and 12.022(h) 0.4 and 0.14(i) 10.67 and 10.72. Rew and 2.05, 7.048, 7.002, 7.2(b) 2.37, 3.1, 2.7, 3.01(c) 2.8, 2.08, 2.88, 2.008(d) 6.1261, 6.28, 6.05, 6.23. Rew what follows in descending order:a) 0.03, 1.03, 0.13, 1.13(b) 25.29, 29.25, 25.9, 29.5(c) 6.06, 0.66, 6.6, 6.0(d) 20, 18.08, 20.02, 18.84. Which is the highest decimal number: 94.002, 94.123 or 94.103?5. Which is the lowest decimal number: 10.01, 10.13 or 10.10?6. Compare the given decimal places and put < , > , or = . (i) 3.66 13.66 (ii) 7.268 7.291 (iii) 22.16 22.06 point (iv) 0.5 0.005 (v) 132.09 113.89 (vi) 9.881 9.818 7. Arrange the given decimal places in ascending order of the rocket. 9.02, 15.1, 2.88, 2.56, 0.96, 6.376 8. Arrange the given decimal places in order of order:(i) 3.15, 0.624, 7(ii) 10.004, 10.26, 10.307(iii) 8.13, 8.31, 8.013(iv) 60.211, 60.711, 60.112 (v) 0.732, 0.327, 0.372 Reply to worksheet compare and order decimals are given below to check for accurate answers to the above questions. Responses: 1. a < b < c < d < e < f < g < h < i < j < k < l < m < n < o < p < q < r < s < t < u < v < w < x < y < z < 2. a) 7.002, 7.048, 7.05, 7.2 b) 2.37, 2.7, 3.01, 3.1 c) 2.008, 2.08, 2.8, 2.88, d) 6.05, 6.1261, 6.2, 6.28 3.c <7-) 1.13, 1.03, 0.13, 0.03 (b) 29.5, 29.25, 25.9, 25.29 (c) 6.6, 6.06, 6.0 , 0.66 d) 20.02 20.00, 18.8, 18.08 4. 94.123 5, 10.016, i < ii < iii < iv < v < vi < 7. 8. 3.15, 7.ii 10.004, 10.26, 10.307(iii) 8.013, 8.13, 8.31(iv) 60.11 2, 60.211, 60.711(v) 0.327, 0.372, 0.732 7. Grade Math problems from the worksheet comparison and ordering decimals on the home page did not find what you were looking for? Or you want more information about Math Only Math. Use this Google Search to find what you need. Issue 1: Compare 1.031 and 0.256.Problem 2: Compare 0.231 and 0.228.Problem 3: Subscribe to decimal places 1.023, 1.101 and 0.985 at least the largest. Issue 4: Subscribe to decimal places of 0.098, 0.123 and 0.985 at least the largest. Detailed Answer Key Problem 1: Compare 1.031 and 0.256.Solution : To compare given decimal places, we need to write them in the table as below. Compare the first column(s) in the table above We have 1 1.0231 and 0 .256. Since 1 is greater than 0, we are 1.031 1.031 greater than 0.256 Problem 2: Compare 0.231 and 0.228.Solution : To compare given decimal places, we need to write them in the table as below. Compare the numbers in the first column(s) in the above table. In the first column we have 0 of both decimals 0.231 and 0.228.So, we need to compare the third column (tenths). In the third column (tenths), we have the same number 2 in both decimal systems. So, we need to compare the numbers in the fourth column (centenary). In the fourth column (centenary), we have 3 0.231 and 2 0.228.Since 3 is greater than 2, we have 0.231 is greater than 0.228The problem 3: Arrange decimal places 1.023, 1.101, and 0.985 at least the largest. Solution: To order these decimal places, we need to write them into the table first as below. To get at least one, compare the statuses in the first column(s). We're going to get 0.985. That's the least given in three decimal places. To get the next minimum number, let's compare 1.023 and 1.101. In both decimals, we will find 1 in the first column (units). Now we need to compare the third column (tenths). There we get 0 1.023 and 1 1.101. Since 0 is less than 1, the next minimum decimal place is 1.023. Therefore, the order of the given decimal places at least the largest is 0.985, 1.023, 1.101: At least the largest of the decimal places 0.098, 0.123 and 0.985. Solution: To order these decimal places, we need to write them into the table first as below. To get at least one, compare the statuses in the first column(s). We get 0 in all three decimals in the first column. So, let's move to the third column (tenths) and compare the numbers. In the third column we get 0 0.098. Therefore, 0.098 is at least among the given decimal places. In the same column, we get 1 0.123. It's the next smallest decimal. Therefore, the number of decimal places given is the least of the largest in 0.098, 0.123, 0.985Note: also in the third column, if you get the same number in all three decimal numbers, compare the fourth column (column of centuries) and so on the invoice. Apart from the above things, if you need other things in mathematics, please use our Google custom search here. If you have feedback on our math content, please send us : v4formath@gmail.com We always appreciate your feedback. You can also visit the following web pages for various things in mathematics.
